10. *Water Supply.*—Improvements to the water-supply distributary system were also carried out during the year out of the normal resources of the Municipal Council by laying mains and sub-mains in several Mohallas.

11. *Public Health.*—The public health of the City during the year was generally good except for a mild outbreak of plague during August 1938 due to some imported cases. Prompt measures were adopted to stamp out the disease. The anti-rat campaign and anti-malarial operations were continued during the year. Licenses were granted to hotels, coffee clubs, sweetmeat shops, bakeries and aerated water factories in strict conformity with the sanitary rules. Seven hundred and seventeen houses were disinfected during the year. One hundred and thirty-seven prosecutions were launched against persons who brought to sale adulterated foodstuffs and 41 of them ended in conviction under the Food Adulteration Act. As in previous years, there were seven milk centres during the year of report. In order to extend the benefit of the child welfare work to the residents of the far off portions of the Manantody Road Extension and its vicinity, the new Municipal building occupied by the toddy shop on that road was given away free of cost to the Gunamba Maternity and Child Welfare Trust for opening a Milk Centre.

14. *Public Instruction.*—The Municipal Council continued to be the Local Education Authority in respect of Primary Schools in the City. The number of schools under its control was 57. The combined strength of these schools was 7,038 as against 6,853 in the previous yer. Another important and memorable event during the year was the visit of Prince Jayachamarajendra Wadiyar Bahadur to the meeting of the Municipal Council held on 29th October 1938. The Prince was pleased to observe that he was very much impressed by the proceedings and the way in which they were conducted. Two new Local Fund Dispensaries were started—one at Narasimharajapuram and another at Chamundipuram, to give medical aid to the residents of those localities. Adoption of the Standard Frequency of 50 Cycles.

READ—

Government Order No. E. D. S. 205-7, dated 4th August 1937, conveying administrative sanction to prepare estimates, etc., in connection with the Jog Falls Hydro-Electric Scheme.

2. Proceedings of the Meetings of the Hydro-Electric Schemes Committee held on the 10th and 29th November 1938 in *re* question of frequency to be adopted and other matters.

3. Letter No. 2717, dated the 12th May 1939, addressed to the Publicity Officer, Mysore Government, forwarding, for giving publicity, a copy of English Notification stating that the frequency for the Jog Project might be 25 or 50 and that consumers should purchase electrical equipment which might be suitable for both 25 and 50 cycles supply.

ORDER NO. E. D. S. 252-315, DATED BANGALORE, THE 3RD AUGUST 1939.

The main electric power supply of Mysore is alternating current, the frequency of which is 25 cycles per second. This is however converted into 60 cycles for all domestic supplies in Bangalore and Mysore Cities. These frequencies were adopted many years ago when the Cauvery Falls were first harnessed at Sivasamudram for power generation.

2. In recent years, there has been a movement in practically every country in the World to standardise one frequency only. As the lower frequencies such as 25 when used for lighting, produce a flicker which is injurious to the eye, the tendency is for the standard frequency to be either 50 or 60. In Europe, the standard frequency is generally 50 cycles. This is also the standard frequency adopted in the adjoining Provinces of Madras, Bombay and elsewhere in India.

3. The question of abandoning the existing frequencies in Mysore in favour of the standard Indian frequency of 50, has been engaging the attention of Government for some time past. It is estimated that by the adoption of this frequency for the Jog Scheme, there will be a saving which in a comparative short time will pay for the cost of conversion in the rest of the State, and thereafter, there would

be an annual saving to Government and consumers from $2\frac{1}{2}$ to 5 lakhs of rupees. Government, after carefully considering all the aspects of the case, are pleased to order—

(1) that 50 cycle frequency be adopted for generating power at the New Jog Hydro-Electric Station;

(2) that the rest of the State excluding the Kolar Gold Fields area be converted from 25 cycles to 50 cycles at a later date;

(3) that manufacturers and consumers be informed that the standard frequency in the North-West of the State will be 50 cycles from about 1942, when the Jog Scheme is expected to come into operation, and that the rest of the system will be converted from 25 to 50 cycles any time between 1942 and 1950.

Grant of lands to deserving Village Panchayets for the Planting of Fruit Trees.

READ—

Government Order No. R. 9173-82--L. R. 508-28-4, dated 4th May 1929, sanctioning, among other matters, the proposal of the Revenue Commissioner to empower him to grant lands not exceeding six acres of dry and two acres of wet to deserving Village Panchayets for growing vegetables.

2. Letter No. C. 3921—38-39, dated 24th July 1939, from the Revenue Commissioner in Mysore, recommending for reasons stated that Survey No. 69, measuring 1 acre and 34 guntas, of Kantanahalli Village, Kunigal Taluk, may be granted to the Village Panchayet at Nagasandra for the planting of fruit trees, such as cocoanut, mangoes, jack, etc., for an upset price of Rs. 5 subject to the payment of dry assessment on the lands concerned and to the reservation of a clear space of 15 yards all round the newly excavated drinking water well situated in the survey number in question.

ORDER NO. R. 1027-37—L. R. 93-39-2, DATED BANGALORE, THE 11TH AUGUST 1939.

In the circumstances stated, the recommendation of the Revenue Commissioner is sanctioned.

2. Government direct that the scope of the Government Order dated 4th May 1939, read above, be widened and that it be made applicable also to cases of lands granted to deserving Village Panchayets for the planting of fruit trees, such as cocoanut, mangoes, lime, tamarind, etc., subject to the conditions prescribed therein.

Committee to suggest measures of relief to Coffee Planters in the State.

ORDER No. R. 1040-9—L. R. 97-39-2, DATED BANGALORE, THE 11TH AUGUST 1939.

In view of the representations made to Government that, owing to the fall in the price of coffee, the planters, particularly those of limited means, were finding it difficult to get financial accommodation to meet the working expenses of their estates, Government sanctioned in June 1936 a scheme for granting takavi loans to planters and provided a sum of Rs. 3 lakhs for the purpose for the year 1936-37. The scheme has since been continued and an allotment each year of one lakh of rupees was made in the budgets for the years 1937-38 and 1938-39 and of one and half lakhs of rupees in the current year.

2. It has been brought to the notice of Government that the existing rules are too limited in scope to benefit the majority of the planters to any substantial extent. Representations have been made in the Representative Assembly and elsewhere that the system of granting takavi advances might be liberalised and that measures might be adopted for assisting the industry on a scale commensurate with its present needs.

3. Government observe that the takavi loan rules of 1936 were intended to meet a situation which, it was hoped, would be temporary. The slump in prices having continued for several years, Government agree that the position needs to be re-examined. They are accordingly pleased to appoint a Committee consisting of the marginally noted officers and non-official gentlemen to investigate the condition of the planting industry and the adequacy or otherwise of the existing credit facilities available to the planters and to suggest the further measures, if any, that might appropriately be taken, directly or through State aided agencies, in order to stabilise the industry.

Raises 'Average Pay' mentioned in Explanations to Rules 5 and 6 of the Revised Rules of Recruitment to Rs. 45 for purposes of classification of appointments.

READ—

Government Order No. 6-105—C. R. B. 1-34-1, dated 3rd July 1934, issuing revised rules of recruitment to the subordinate services of Government.

2. O. M. No. 2267-2366—C. R. B. 7-35-1, dated 12th October 1935, permitting the appointment, temporarily, of backward community candidates from Class II 'B' lists in 'Special' vacancies of Class I, pending availability of backward community graduates.

3. Extract from the proceedings of the Fifty-second Meeting of the Central Recruitment Board held on the 12th April 1939, that in the case of posts carrying progressive scales of pay, the "average pay" be raised from Rs. 35 to Rs. 45 for purposes of classification of appointment.

ORDER No. 773-872—C. R. B. 5-39-1, DATED BANGALORE, THE 7TH AUGUST 1939.

For purposes of recruitment to the subordinate services of Government, appointments are classified on the basis of pay. Posts on a pay of Rs. 35 and above fall under Class I and those below in Class II. In the case of a post carrying progressive scale of pay, the average pay, as calculated for financial purposes, determines the class into which the appointment falls. The minimum qualification for Class I appointments is a degree of the Mysore University or any other recognised University and for Class II appointments, a pass in the S.S.L.C.

Examination. The recruits for these classes of appointments are started on the minimum pay of the appointments. Accordingly, graduates appointed in Class I posts carrying a progressive scale of pay, the average salary of which is Rs. 35 and above, are generally given only the minimum pay of the scale, which, in a large number of cases, varies from Rs. 25 to Rs. 30. It was brought to the notice of Government that graduates of backward communities were not forthcoming in sufficient numbers for taking up such appointments. In the interests of work, Government in their O. M. No. 2267-2366—C. R. B. 7-35-1, dated the 12th October 1935, permitted the appointment of candidates from Class II 'B' lists, temporarily, in special vacancies of Class I, pending the availability of graduates of backward communities. The situation has not materially changed since 1935. Graduates assigned for such appointments do not generally turn up when the posts are offered to them, or if they respond, they do not continue long in those appointments. Besides, the classification of posts according to the above rules, has resulted in the creation of a large number of Class I appointments for which graduates of backward communities are not forthcoming in sufficient numbers.

The difficulties experienced in the working of the revised rules were considered by the Central Recruitment Board, in consultation with the several heads of Departments, and the Board have resolved "that in the case of posts carrying progressive scale of pay, the average pay mentioned in explanation to rules 5 and 6 of the revised rules of recruitment be raised to Rs. 45 for purposes of classification of appointments." Government are pleased to accept the recommendation of the Board and direct that the following sentence be added to the explanations to rules 5 and 6 of the revised rules issued with Government Order dated 3rd July 1934.

"Posts on progressive scales of pay, the minimum of which is less than Rs. 35, will be classified as Class I, only when the average pay of the scales is Rs. 45 and above."

Appropriation Report.

2. *Para* 4. *Excesses over Grants.*—Excesses over grants have appeared under 13 heads. Government desire that Heads of Departments should make all possible attempts to keep expenditure or liabilities within the grants placed at their disposal and in cases where the incurring of an excess becomes inevitable, sanction of Government should invariably be obtained well in time to such excess.

Audit Report.

3. *Para* 7. *Loans for Restoration of Tanks.*—The Committee have observed that the present procedure, in regard to the recovery of loans for restoration of tanks, requires examination and revision, to ensure that the expenditure incurred by the Public Works Department from time to time is included in the demand to be

raised by the Revenue Department promptly in order that steps towards recovery can be taken at least as soon as water is made available for irrigation purposes below the tank. The Comptroller is requested to examine the details of the question and the procedure to be adopted, in consultation with the Revenue Commissioner and the Chief Engineer and submit suitable proposals and rules embodying the arrangements to be adopted to secure this end.

4. *Para* 8. *Expenditure without or in Excess of Sanctioned Estimates or Appropriation.*—Government regret to note that in spite of the repeated observations made by the Public Accounts Committee and by Government in the past, the tendency to take up works for execution before the detailed estimates relating thereto are sanctioned, is definitely on the increase, and that there has been also no improvement in regard to the regulation of expenditure on works, with reference to the sanctioned appropriations. They once again direct that the prescribed financial rules in the matter be strictly followed.

They also approve of the following suggestions made by the Public Accounts Committee on page 14 of their report. The Chief Engineer is requested to issue necessary instructions to the subordinate officers of the Department in the matter :—

(1) The standing orders that works should be taken up for execution only after the detailed estimates therefor were sanctioned and necessary funds provided, should be strictly observed save in exceptional circumstances.

(2) Estimates for important works that may have to be taken up in the near future may be got sanctioned well in advance, so that they may be taken up for execution with full details available as soon as the funds required are provided.

(3) In cases of special urgency where works are taken up under proper authority, in anticipation of completion of formalities, steps must be taken to get due sanction for the detailed estimates and appropriation of requisite funds with all possible despatch. Until this is done, a copy of the preliminary estimate on the basis of which work is begun, pending formalities, may be supplied to the Audit Office with an explanation of circumstances.

5. *Para* 9. *Delay in the Submission of Returns and Completion Reports.*—Several cases of inordinate delay in the submission of the prescribed returns, and completion reports for works, have been brought to the notice of Government. Government direct that the prescribed due dates for the submission of these financial statements should be adhered to and delays avoided as far as possible.

6. The attention of the Heads of Departments is invited to the other observations and suggestions of the Committee and those in the Audit Report for taking necessary action.

IMPORTANT GOVERNMENT ORDERS

Transfers the Control over Quarries of Ornamental Stones to the Geological Department.

READ—

Correspondence ending with letter No. 8064-339, dated 20th July 1939, from the Director of Geology, submitting a set of rules for regulating the issue of licenses for quarrying coloured ornamental stones other than grey and dark-grey granite met with in the several parts of the State.

ORDER No. R. 1209-19—L. R. 448-38-6, DATED BANGALORE, THE 18TH AUGUST 1939.

At present licenses to quarry all varieties of stones are being granted by the Revenue Department in accordance with the provisions of the Land Revenue Rules. The Director of Geology has brought to the notice of Government that besides the true granites which are of the grey and dark-grey types commonly used for building purposes, there are a number of other varieties of stones such as felsites, porphyries, potstones, dark-coloured dykes, green quartzites, etc., which form valuable ornamental stones and that even these stones are being worked now under licenses issued by the Revenue Department. He considers that as these stones are valuable and not required for ordinary building purposes the licenses for quarrying these special varieties of stone should not be issued indiscriminately and that licenses for these stones should be granted more or less on the same lines as those relating to mining mineral deposits. He suggests therefore that the control over such quarries may vest with the Geological Department who may issue licenses for quarrying these stones. Agreeing with the Director, Government are pleased to direct that in future licenses for quarrying the ornamental stones referred to above be granted by the Department of Geology subject to the rules appended to this order.

2. Necessary amendments to the Land Revenue Rules will be issued separately.

DEVELOPMENT SECRETARIAT

Scheme for the maintenance of hallikar breeding bulls in District Veterinary Hospitals.

READ—

Correspondence ending with letter No. Fl. 130-1730—38-39, dated 13th July 1939, from the Director of Agriculture, submitting, for sanction, a scheme for the maintenance of hallikar breeding bulls in District Veterinary Hospitals.

ORDER No. A. & F. 482-502—A. H. 136-38-6, DATED BANGALORE, THE 16TH AUGUST 1939.

In Government Order No. R. 3852-69—Agri. 143-11-3, dated 28th January 1913, a scheme for the maintenance of a breeding bull in each of the Veterinary hospitals and dispensaries was sanctioned. This scheme was discontinued from the year 1931 as a measure of economy. Since then the need for good breeding bulls

in the Districts was very keenly felt and representations in this respect have also been received from the raiyats. The question of reviving the above scheme was, therefore, under the consideration of Government for some time past. The scheme now submitted by the Director of Agriculture contemplates the maintenance of a good hallikar breeding bull in every District Veterinary hospital with one extra bull in each of the hospitals at Bangalore and Mysore where the number of cattle is large. These bulls are estimated to cost about Rs. 200 each. The feeding charges may amount to about Rs. 25 per mensem, including the pay of a caretaker who will be attached to the hospital. A fee of Re. 1 per service is proposed to be charged and the return on this account is estimated at Rs. 120 per annum per bull.

2. As only a sum of Rs. 3,000 has been provided in the budget for 1939-40 for the scheme, the present proposal of the Director is to purchase five out of the ten bulls in December 1939 and the other five in April 1940. The non-recurring expenditure towards the purchase of these bulls will amount to Rs. 2,000. The remaining sum of Rs. 1,000 is proposed to be utilised towards maintenance charges for the remaining period of the current year.

3. Government are pleased to approve of the above scheme and the proposals made thereunder by the Director, the expenditure of Rs. 3,000 (both non-recurring and recurring) being met from the provision made in the current year's budget in this connection. The entire income realised should be credited to Government.

4. Permission is also accorded to draw the funds required for the purchase of the bulls on abstract contingent bills as and when required.

Shanbhog Narasimhamurthy and Patel Sivanna of Haleyur.	30th August 1938.	No Thakarar ...	.....	.....	The portion in Survey No. 16 of Haleyur proposed for the forest may be reserved for the forest along.	
Shanbhog Thippiah and others of Kenkere.		Pray that the proposed forest line running in Survey No. 18 may be shifted a little bit farther as it is abutting a katte in Survey No. 16 and the cultivation causing much inconvenience.	Oral statement of the villagers at the time of settlement.	The line may be shifted to a distance of 5 chains east from its present position.	I agree with the District Forest Officer. The proposed forest line may be shifted to a distance of 5 to 6 chains east from its present position as shown in the map as prayed for by the villagers to avoid inconvenience to the villagers. Right of way over the existing foot-path from Kenkere to Sringarasagara 2 yards wide and 7 chains long through Survey No. 18 of Kenkere is admitted for men and cattle only throughout the year.	
Patel Hutchegowda, Shanbhog Nanjappa, Bathale Hutchegowda of Kodavatti.		Pray for the complete exclusion of Survey No. 83 of Kodavathi from the Forest as a portion of cultivation has fallen inside the proposed forest line and would cause inconvenience for the grazing of their village cattle.	do	No further exclusion in the proposed area is possible as sufficient gomal has been left out already for the village [illegible] only the area granted [illegible] for cultivation may be excluded from the Forest.	As the present forest line of the proposed block is almost abutting the hiduvali lands granted in Survey No. 83 and some are inside the forest area thereby causing much inconvenience to the village cattle in future; the proposed forest line has been ordered to be shifted to a distance of about 21 chains east from Survey No. 82 of Kodavathi, thereby excluding about 76 acres from the proposed forest for the use of the villagers as prayed for by them.	
Shanbhogh Nanjappa of Bhairanaikanhalli.		Pray for the complete exclusion of Survey No. 29 from the Forest as the proposed area includes a portion of hiduvali land and also would cause inconvenience for the requirements of the village cattle.	do	As sufficient gomal has been left out for the use of the village cattle and Survey No. 29 being a kharab land, no further exclusion of any portion of the proposed forest area is possible. Only the small portion of the hiduvali land included in the forest may be excluded.	I agree with the District Forest Officer. Only a portion of the hiduvali land about 2 acres included in the proposed forest area has been ordered to be excluded from the Forest reserving the remaining area in Survey No. 29 for the Forest as proposed, as the villagers have got sufficient gomal for their use. Right of way over the existing foot-path from Bhairanaikanahalli to Bandihalli 2 yards wide and 14 chains long through Survey No. 29 of Bhairanaikanhalli is admitted for men and cattle only throughout the year as the same is in use.	
Shanbhog Nanjappa and Patel Basavegowda, Annegowda, Thimma of Sringarasagara.		Pray for the complete exclusion of Survey No. 34 of Sringarasagara from proposed State Forest for the use of the villagers for being granted for cultivation and for the grazing of village cattle.	Oral statements of the villagers at the time of settlement.	This cannot be granted as the village has got sufficient gomal.	Yes. I agree with the District Forest Officer. As the village cattle have got sufficient gomal left for them, the prayer of the villagers is untenable. Right of way over the existing cart-track from Sringarasagara to Kenkere 6 yards wide and 45 chains long through Survey No. 34 of Sringarasagara and 18 of Kenkere is admitted for men, cattle and carts throughout the year as the same is in use by the villagers.

ORDER NO. L. 2204-23—ML. 50-38-27, DATED BANGALORE, THE 28TH AUGUST 1939.

Government observe that the Government order of 21st December 1936, read above, provided for the payment of the mileage cess and service-tax to the District Boards and the two City Municipalities only. The other municipalities are not being given a share in these taxes. The contributions due by several town and minor municipal councils towards the maintenance of the State Fund roads lying within the municipal limits have fallen into arrears and the municipal councils have, in view of their very slender resources, been repeatedly representing to Government the necessity for waiving the arrears and the discontinuance of the payment of the contribution. Government are therefore pleased to exempt, with effect from the year 1939-40, the town and minor municipal councils in the State from the payment of contributions towards such annual maintenance, including tarring, whenever that is done.

2. They further direct, in modification of the existing orders, that the State Fund and the District Board roads passing through towns and villages be maintained by the Public Works Department hereafter, without levying any contribution either from the municipal councils or the district boards for their maintenance.

3. Regarding the arrears of contributions due by the several municipal councils up to the end of June 1938, as stated above, as also those for the year 1938-39, the Deputy Commissioners of Districts are requested to see that necessary arrangements are made for their payment immediately.

FINANCIAL SECRETARIAT.

Reorganisation of the Financial Branch of the Chief Electrical Engineer's Office.

READ—

Government Order No. Fl. 3779-838—G. F. 3-24-2, dated 5th January 1925, sanctioning the formation of a Financial Branch as part of the internal organisation of the Chief Electrical Engineer's Office with a view to ensuring an effective internal audit of the transactions of the Electrical Department and defining the duties, etc., of the Financial Assistant placed in charge of the said Financial Branch.

2. Correspondence ending with letter No. 1552—Es., dated 22nd May 1939, from the Comptroller to Government, pointing out certain deficiencies in the existing system under which the Audit Officer is placed practically in a position of subordination to the executive head of the department and submitting proposals calculated to remedy the defects.

3. Letter No. 2240, dated 24th July 1939, from the Chief Electrical Engineer, submitting his observations on the Comptroller's proposals.

ORDER NO. FL. 1328-78—G. F. 7-36-6, DATED BANGALORE, THE 5TH SEPTEMBER 1939.

The Government order read above laid down, among other things, that the Financial Assistant to the Chief Electrical Engineer should be entrusted with the following duties :—

1. To be Financial Adviser to theChief Electrical Engineer.
2. To be the Accounting Officer of the Electrical Department.
3. To be the Officer in charge of internal Audit of the Financial transactions of the Electrical Department.

It was specifically laid down in that Government order that in all measures relating to audit and accounts, this officer should be guided by the instructions issued by the Comptroller who is the chief audit authority in the State. Definite provision was also made in the procedure prescribed therein for reference being made to the Comptroller for decision, of cases in which the Financial Assistant was unable to accept the views of the Chief Electrical Engineer, after giving effect to the latter.

2. In view of the development in operations and the growth in size of the revenue and expenditure of the department, including Capital and Depreciation Fund Works, the arrangement designed for the earlier stages is found to require revision with a view to ensure more efficient and independent audit. The present arrangement requiring the Financial Assistant to approach the Comptroller only through the Chief Electrical Engineer, the administrative head of the department, is found unsuitable, and it is considered desirable that the Audit Officer should have full freedom in raising objections and in approaching the Comptroller, without the intervention of the administrative head of the department. Barring the Gazetted Officers and a few senior Superintendents of the Financial Branch, the other subordinate staff of the Section are at present an integral part of the departmental cadre subject to the disciplinary control of the Chief Electrical Engineer. The placing of the audit staff under the disciplinary control of the administrative head of the department, whose sanctions are expected to be examined by them, is also not a satisfactory arrangement.

3. The Government of India Accountant, who was deputed to examine the working of the Financial Branch of the Electrical Department, has also expressed himself in favour of an alteration of the present organisation to ensure that audit is not placed in a position of subordination to the Chief Electrical Engineer.

4. The Comptroller has, after an examination of all aspects of the case, at the instance of Government, submitted the following proposals for the consideration of Government :—

(1) The administrative control of the entire staff of Accounts Clerks, Accountants and Superintendents may be transferred to the Comptroller, the head of the Audit and Accounts Department of the State.

(2) The Financial Assistant should be directly subordinate to the Comptroller and should work under his instructions and general control and guidance.

(3) All objections taken by the Financial Assistant in the dischage of his audit functions will be final. In cases where the Chief Electrical Engineer is not satisfied with the decision of the Financial Assistant, he may make a reference to the Comptroller as the final authority in respect of audit and accounts matters.

(4) The Financial Assistant will also, as hitherto, act as Financial Adviser to the Chief Electrical Engineer in respect of proposals for expenditure before sanction and other matters, and his advice will be freely availed of by the Chief Electrical Engineer. The Financial Assistant will continue to work in close collaboration with the Chief Electrical Engineer and bring all account and audit irregularities to the notice of the Chief Electrical Engineer with as little delay as possible.

(5) In other matters, the existing procedure will continue for the present.

5. The Chief Electrical Engineer, however, is of the opinion that it would be a great help to him, in avoiding irregularities, etc., if the audit is not entirely separated from him, and he would prefer the continuance of the present system with slight modifications and that in case it is finally decided that the audit cadre should be separated, he may be given a separate Accounts Assistant to help him in the internal accounts work of the department.

6. On a careful consideration of all aspects of the question, Government have come to the conclusion that the interests of safeguarding the revenue and securing a proper control of expenditure of this department could, under present conditions, be best served by adopting the modifications suggested by the Comptroller, as briefly indicated in para 4 above, as these proposals are calculated to serve the objective of an independent examination by Audit of all the financial transactions of the department, while giving the Audit, at the same time, an opportunity to work in collaboration with the internal organisation of the department.

7. The Comptroller is requested to take necessary further action and to submit detailed proposals in regard to the personnel, the pay and prospects of the staff to be employed in the Audit and Accounts work and other matters to Government, at a very early date.

8. The request of the Chief Electrical Engineer for a separate Accounts Assistant, after the revised scheme is brought into effect, will be considered by Government later, along with the proposals regarding staff, etc., called for from the Comptroller.

A. N. RAGHAVACHAR,
Secretary to Government,
Financial Department.

STATEMENT B.—of Obalapura Block, Challakere Taluk, Chitaldrug District.

Serial Number	Names of claimants	Date of presentation of claims	Nature and extent of claims preferred	Brief summary of the evidence adduced in support of claims	Brief summary of the Forest Officer's arguments and evidence produced by him	Brief abstract of decision and final disposal of the claims by the Forest Settlement Officer	Brief abstract of decision, if any, of court of final appeal and settlement.
1	2	3	4	5	6	7	8
1	Raiyats of Obalapura and Donehalli Villages.		No claims were preferred. Their representation is that— If their kavals are included in the Forest, their cattle will have no place for grazing. They have no good pasturage (gomal) for their cattle. There are three temples *i.e.*, Siddappa, Maramma and Akkamma. They have to go to the temple for seva frequently. Their cattle will have no access to go to drink water. Hence they pray that these lands should not be included in the Forest.		As lumpsum grazing system provides necessary concession to raiyats, these numbers may be included in the State Forest.	As the raiyats have agreed to pay lumpsum grazing fees, they may be shown this concession. Right of way to the three temples may be allowed. Right of way for the cattle to drink water in the tank may also be allowed. These rights of ways are included in the above award.	
2	Sannabalayia, resident of Donehalli Village.		Claims preferred are that— Phode No. 2 of Survey No. 65 of Donehalli Kaval measuring 20 acres assessed at Rs. 7-8-0 is in his khate. He has jali trees. If this land is included in the Forest, he will be put to great hardship. Hence he prays that it should be excluded from the Forest.		It would be better if these lands under cultivation are also included in the forest as the boundary will be easier to demarcate.	As this extent of 20 acres (Survey No. 65—2) is under cultivation and is yielding a Land Revenue of Rs. 7-8-0, it is not fair to include this extent in the forest as the raiyat will be put to hardship and Government will loose its revenue. I am of opinion that this extent may be excluded from the forest. Survey No. 65/1, measuring 25 acres and assessed at Rs. 9-6-0 per annum belonging to Kalli Rangappa, may also be excluded for the same reason. The party was absent.	
3	Mr. M. Bajjappa, President, Lakshminarasimhaswami Co-operative Society, Obalapura, Challakere Taluk.	16th December 1936.	The claims preferred are that— Survey No. 94 of Obalapura Village measuring 31 acres and 7 guntas assessed at Rs. 8 is now in the possession of the Society. There are heavy arrears against this land. Hence he prayes that it should be excluded from the forest.		It is better from the point of view of boundary line to include it in the forest.	As this land is in the possession of the Co-operative Society and is giving a Land Revenue of Rs. 8 per annum, I am of opinion that this land may be excluded from the forest and the demarcation line taken 110 yards from the edge of cultivation.	
3a	Survey No. 91 Extent 19 acres and 29 guntas Assessment Rs. 6.		No representations; the owners absent.		This number is cultivated and being close to the proposed boundary may be excluded from the Reserve.	Survey No. 91 may be excluded as it is close to the proposed boundary and the demarcation line taken 110 yards from the edge of cultivation.	
4	Thimmaiya, Narasaiya and Gowraiya, residents of Donehalli Village.		The claims preferred are that— Survey No. 50 of Donehalli Village measuring 38 acres and 39 guntas assessed at Rs. 9-8-0 is in their joint khate. They have grown jali and honge trees in this land for being used as manure for their wet and garden lands. If this is included in the forest they will be put to great hardship. Hence they pray that this land may be excluded from the forest.		Do ...	This land also may be excluded as it is under occupation and yielding a Land Revenue of Rs. 9-6-0 per annum. Otherwise it will cause a good deal of hardship to the raiyat. The demarcation line may be taken 110 yards from the edge of cultivation.	
5	Thopuru Govindappa, resident of Donehalli Village.		The claims preferred are that— Survey No. 46 of Donehalli Kaval Village measuring 7 acres and 18 guntas assessed at Rs. 3-8-0 is in his khate. He has grown honge trees in this land at a considerable expense for being used as manure for his wet and garden lands. If this is included in the forest he will be put to a loss. Hence he prays that it should not be included in the forest.		This is not included in the forest.	No action is necessary as this land is not included in the proposed forest.	
6	Raiyats of Katamdevarakote Village.		No claims were preferred. Their representation is that— Their village contains a good number of cattle and sheep. If Survey Nos. 58 and 60 are included in the forest, they will be put to inconvenience for want of grazing lands for their cattle. Hence they pray that these two numbers should be excluded from the forest.		These may be included in the State Forest as already proposed as the raiyats' claims are not sustainable.	As Survey No. 58 is an assessed waste land relinquished to Government and as Survey No. 60 is a kharab land included in the annual sale of hulbanni lands, the contention of the raiyats cannot be accepted. These lands may be included in the forest and the raiyats allowed to graze their cattle in the forest under the lumpsum grazing fee system.

Proposals for Further Insurance.

OFFICIAL MEMORANDUM.

ORDER NO. FL. 2726-80—G. F. 145-39-2, DATED BANGALORE, THE 14TH NOVEMBER 1939.

It has come to the notice of Government that many permanent employees of Government have either not insured at all, or have not insured up to the prescribed limit of compulsory insurance, under the State Life Insurance Scheme. The attention of all Heads of Departments and other Drawing Officers is invited to Rules 6, 7 and 8 of the Rules of the Official Branch of the Government Insurance Department which make it obligatory on the part of every person who enters the permanent pensionable service of Government to insure in the Official Branch and contribute 10 per cent of his pay every month as premium, and which also lay down that whenever the pay of an insured is permanently increased and the premium already payable for the existing insurance does not amount to 10 per cent of the pay as increased, a further insurance shall be effected for such additional premium as will bring up the total to not less than 10 per cent of the pay.

Further, every Drawing Officer is required to satisfy himself in respect of the employees working under him that all persons permanently entertained as well as the insured officials who have received permanent increase to their pay during a particular month have duly submitted their proposals for the first and further insurance, and to record a certificate that he has done so in the establishment salary bill of every month. Government regret to note that these certificates are in several instances being made by the Drawing Officers as a mere formality without the requisite scrutiny.

Government desire to impress upon all the Heads of Departments and Officers the desirability of securing the due enforcement of the provisions of the rules laid down in this behalf and to direct that needful action be taken immediately to see that all employees who are required under the rules to insure their lives or send up proposals for further insurance do so at the earliest opportunity and that no slackness is allowed to recur in this respect in future.

Administration of Village Panchayets during the year 1938-39.

READ—

Letter No. C. Per A. 44—38-39, dated the 8th October 1939, from the Revenue Commissioner in Mysore, submitting the report on the working of the several Village Panchayets in the State for the year 1938-39.

ORDER No. L. 4635-58—V. P. 32-39-2, DATED BANGALORE, THE 11—16TH NOVEMBER 1939.

Recorded.

2. *Constitution.*—The total number of Village Panchayets at the end of the year was 11,845 (11,843). The number of Chairmen elected by the Panchayets was 493 (485) and the total number of members was 89,183 (88,901).

3. *Finance.*—The Village Panchayets had a cash balance of Rs. 32,17,825 at the beginning of the year. The total income and expenditure of the Panchayets amounted to Rs. 8,43,559 (Rs. 11,13,859) and Rs. 13,58,082 (Rs. 10,81,173) respectively, leaving a cash balance of Rs. 27,03,302 at the close of the year. The decrease in income is said to be due to unfavourable seasonal conditions.

According to the new Rural Water Supply Scheme sanctioned by Government an allotment of Rs. 3 lakhs was made during the year for sinking drinking water wells in villages. The total allotment for the improvement of villages was Rs. 1,10,000.

4. *Demand, Collection and Balance.*—The arrears outstanding recovery at the beginning of the year amounted to Rs. 42,91,699 and the demand during the year was Rs. 12,85,649 (Rs. 13,94,218). A sum of Rs. 9,91,503 (Rs. 13,33,119) was realised during the year inclusive of remission, etc., leaving a balance of Rs. 45,85,845 for recovery at the end of the year. The arrears in the Districts of Bangalore (Rs. 6,10,964), Tumkur (Rs. 8,68,926), Mysore (Rs. 15,68,189) and Hassan (Rs. 5,26,888) continue to be heavy and account for more than three-fourths of the arrears for the whole State. In 35 Taluks, the arrears exceed Rs. 50,000 and in the Taluks of Nanjangud (Rs. 1,93,377), Chamarajnagar (Rs. 1,75,854), Tumkur (Rs. 1,71,910), Gubbi (Rs. 1,41,558), Krishnarajpet (1,39,937), Arsikere (Rs. 1,32,173), Bangalore (Rs.1,26,270) and Nagamangala (Rs. 1,26,057), the arrears are very heavy. It is very unsatisfactory to note that the local officers have not devoted any special attention to the collection work. Though the Village Panchayet Act and the rules framed thereunder have been amended making the Revenue Officers responsible for the collection of Village Panchayet taxes, the officers have not applied themselves seriously to this important item of work. They are requested to show better progress in the collection work and to see that the arrears are reduced as far as possible.

5. *Expenditure.*—The total expenditure incurred by the Village Panchayets during the year was Rs. 13,58,082 (Rs. 10,81,173). A sum of Rs. 3,96,997 (Rs. 3,69,004) was spent on public works. Forty-four (thirty) Sub-Overseers worked in the several Districts for the execution of both village improvement and Well Works. Besides these, one Sub-overseer was entertained solely for the execution of inter-village communications and other improvement works in the Irwin Canal area. The amount spent by the Panchayets under Conservancy and Sanitation was Rs. 62,535 (Rs. 54,560). Many Panchayets maintained establishments for sweeping and scavenging and the Bilikere Village Panchayet in Hunsur Taluk maintained a cart for removing the sweepings of the village. A good many Village Panchayets constructed or improved the existing drains, laid out improved manure pits, effected repairs to streets and approach roads, laid out village extensions and attended to other improvement works, such as clearing of rank vegetation, filling up of insanitary pits, etc. The construction of houses for the use of the Adikarnatakas was completed in Belagola Village, Seringapatam Taluk, and in Neelakantanahalli, Chennapatna Taluk. A sum of Rs. 4,26,736 (Rs. 2,76,205) was spent for water supply and maintenance charges. According to the new Rural Water Supply Scheme as many as 2,337 well works were programmed for the year, of which 577 wells were completed, while a number of well works were in various stages of progress at the end of the year. Wells have so far been provided in 12,018 inhabited villages in the State, of which 1,503 villages have separate wells for the Adikarnatakas.

6. *Other Activities of the Village Panchayets.*—The system of weekly labour continued to be popular and the approximate value of work turned out during the year under this system is reported to be Rs. 1,22,859.

Sixty-six Village Panchayets have obtained sanction of Government so far to levy optional taxes in their villages.

The provision of medical relief continued to be one of the main activities of the Panchayets. Quinine pills and other country medicines were distributed freely. One hundred and sixty-three Village Panchayets contributed a sum of Rs. 8,841 towards the maintenance of Ayurvedic and Unani Vydyasalas. The amount contributed to the Indian Red Cross Society was Rs. 6,507.

One hundred and thirty-eight villages have been provided with electric lights. Forty-one Village Panchayets are using electric power for agricultural purposes and 22 for industrial purposes. Four hundred and fifty-six Village Panchayets are using improved implements and better variety of seeds. Better farming methods were demonstrated in several villages. Breeding bulls are maintained by 301 Village Panchayets. Seventy village schools, 46 Muzrai institutions, 11 tanks, 62 topes and 137 village forests were under the management of the Village Panchayets. One hundred and sixty-two Village Panchayets have laid out parks, 145 Village Panchayets are maintaining fruit gardens and 815 Village Panchayets have planted fruit and shade trees in their villages. With a view to encourage the Panchayets to take active interest in the development of fruit cultivation, Government have issued orders empowering the Revenue Commissioner to grant an extent not exceeding six acres of dry and two acres of wet land to deserving Village Panchayets free of cost for the planting of fruit trees. Eight hundred and six Village Panchayets are maintaining either libraries or reading rooms. Many useful books, magazines and newspapers are being subscribed for by the Panchayets. Government have issued orders for instructing all Panchayets to set apart a sum of Rs. 5 per annum for forming a library and to arrange for weekly reading of lessons from the books in the library.

The scheme for the improvement of grass lands in villages by providing them with simple working plans and giving them suitable grants is being worked in certain select villages. Goat-keeping and rearing has been introduced in certain villages as an experimental measure. The purchase of three radio sets was sanctioned by Government for use in the Kolar and Tumkur Districts. Model thandas of the Banajara community have been formed in 15 places.

District Conferences were held in all the districts. These conferences were attended by a large number of delegates and the members evinced keen interest in the proceedings during which important subjects affecting the well-being of the rural population were discussed. Exhibitions were also held as adjuncts to the District Conferences at Kolar, Tumkur, Hassan and Kadur. Taluk Conferences were held in all the Taluks and Hobli Conferences were organised in all the Taluks of the Hassan District. A Raiyats' Conference at Keregode, Mandya Taluk, and a Harijan Conference at Madhugiri were also organised during the year.

7. *Rural Welfare Centres.*—The scheme for organising concentrated propaganda was in operation in 234 select villages. The Rural Welfare Centre at Closepet continued to do good work and their Excellencies the Viceroy and the Vicereine visited the Centre. An exhibition was also organised to demonstrate the several activities that are being carried on at the centre.

The Rural Reconstruction Centre at Dodballapur under the management of the National Council of the Young Men's Christian Association continued to work during the year. The question of taking it over under Government management is under the consideration of Government.

8. As in previous years, many non-official gentlemen continued to take keen interest in the working of the Panchayets and made liberal donations for many beneficial measures such as dispensaries, maternity homes, schools, roads and other works of public utility.

Fixing the levy of Out-patient Fee of One Anna.

READ—

Government Order No. G. 1209-60—Med. 71-36-13, dated the 4th August 1939, passing orders revising the scale of fees payable by out-patients attending the branch dispensaries in the cities of Bangalore and Mysore and the major medical institutions, *viz.*, the Victoria Hospital, the Krishnarajendra Hospital, the Minto Ophthalmic Hospital and the Vani Vilas Hospitals and directing among others that—

(*i*) the levy of fees on out-patients attending the branch dispensaries be abolished,
(*ii*) a uniform fee of one anna per day be recovered from all others, even when their income is less than Rs. 50 per mensem, and
(*iii*) destitute persons specifically referred by the Medical Officers of branch dispensaries to the major institutions be exempted from payment of the fee of one anna.

2. Official Memorandum No. G. 1572-6—Med. 71-36-15, dated the 19th August 1938, amending the above order and directing that the revised system referred to therein be applied only to the Victoria Hospital, Bangalore and the Krishnarajendra Hospital, Mysore, excluding the special departments like the Ear, Nose and Throat in the two hospitals and the Eye Department in the Krishnarajendra Hospital.

3. Correspondence ending with letter No. C. 645-63, dated the 29th September 1939, from the Senior Surgeon in Mysore, requesting sanction of Government to continue the rules approved in the Government order and the Official Memorandum, read above, as they stand at present, till the end of 1939-40.

ORDER NO. G. 4427-79—MED. 79-39-4, DATED BANGALORE, THE 20TH NOVEMBER 1939.

The Senior Surgeon states that the Medical Officer, Victoria Hospital, reports that the new system of levy of fees on out-patients sanctioned in the Government order and the Official Memorandum, read above, is working satisfactorily and that the revised rules may be continued on a permanent basis. The Durbar Surgeon and Medical Officer, Krishnarajendra Hospital, Mysore, is also of the same opinion and further proposes that cases of accidents, and medico-legal cases sent by the police and cases referred by one hospital to another in the cities of Bangalore and Mysore for consultation or special treatment may also be treated without the levy of the out-patient fee, in addition to the destitute cases referred by the dispensaries for which there is already provision for treatment without payment of fee. The proposals of the Medical Officer, Krishnarajendra Hospital, supported by the Senior Surgeon are approved.

2. The Durbar Surgeon and Medical Officer, Krishnarajendra Hospital, Mysore, further proposes that the levy of the fee of one anna per day from out-patients even with a monthly income below Rs. 50 may be introduced in the special departments also and that the income may be made use of for increased supply of medicines to such institutions. This proposal is also sanctioned, as even in cases relating to special departments like the Ear, Nose and Throat Department and the Eye Department, patients should ordinarily resort to dispensaries where facilities exist for treating ordinary ailments. If patients prefer to go to the major institutions for treatment in such cases they must be prepared to pay the fee of

one anna even when their monthly income is less than Rs. 50. The levy of out-patient fee of one anna will therefore apply to the special departments of the two hospitals also, as well as to the Minto Ophthalmic Hospital and shall not apply to the Women's Hospitals, *viz.*, the Cheluvamba and the Vani Vilas Hospitals in Mysore and Bangalore.

3. Government direct that the existing rules in regard to the payment of fees by out-patients, with the modifications approved in paras 1 and 2 above, be continued during 1939-40.

4. The Senior Surgeon is requested to send well in time the further report regarding the working of this system.

DEVELOPMENT SECRETARIAT

A Committee for the Resuscitation of Cardamom Industry in the State.

ORDER No. D. 2661-66—I. & C. 323-38-4, DATED BANGALORE, THE 27—28TH NOVEMBER 1939.

The question of placing the cardamom industry in the State on a secure basis has been engaging the attention of Government for some time past. With a view to enable the cardamom planters in Saklespur and Mudgere Taluks to obtain a proper market and a reasonable price for their produce, two cardamom Co-operative Societies were started at Saklespur and Mudgere in 1929 which are reported to have not been of much help to the planters. The planters have been urging on the attention of Government the desirability of forming a joint-stock company under Government auspices, as in the case of the coffee industry. The Deputy Commissioner, Hassan District, supports the proposal of the planters but suggests that the matter may, in the first instance, be investigated by an *Ad-Hoc* Committee. The Director of Industries and Commerce is also of the same opinion.

2. Government agree that, though the cardamom cultivation in the State extending to about 14,000 acres and engaging about 2,100 persons is only a bye-industry, the problem of resuscitating it on a joint-stock basis as proposed by the planters is important enough to be examined by a Committee. They are accordingly pleased to direct that a Committee consisting of the following officers and planters be constituted to examine the question in detail and submit a report for the consideration of Government as early as possible :—

1. The Deputy Commissioner, Hassan (*Chairman*).
2. Mr. K. H. Srinivasan, Senior Assistant Director of Agriculture, Chikmagalur (*Secretary*).
3. The Deputy Registrar of Co-operative Societies.
4. Mr. A. Middleton, Yellikodigie Estate, Mudgere Taluk.
5. ,, L. G. Gallaher, Kadamane Tea Estate, Manjarabad Taluk.
6. ,, A. Mohamed Salaar, Coffee Planter, Areballi, Belur Taluk.
7. ,, Igoor Puttegowda, Igoor Estate, Manjarabad Taluk.
8. ,, U. Narasimhaiya, Uchangi, Manjarabad Taluk.
9. ,, Donigal Siddegowda, Donigal Estate, Manjarabad Taluk.

Broadcasting Station at Mysore.

ORDER NO. A. F. 2390-466—P. & T. 26-38-16, DATED BANGALORE, THE 24TH NOVEMBER 1939.

The question of establishing a Broadcasting Station in the Mysore State has been under the consideration of Government for some time past. A Committee consisting of the Vice-Chancellor, Mysore University, as Chairman, the Director of Public Instruction, the Director of Industries and Commerce, the Chief Electrical Engineer, Dr. M. V. Gopalaswami of the Mysore University, and Mr. K. Srinivasan of the Department of Electro-Technology of the Indian Institute of Science as members was constituted to make recommendations.

The Committee investigated the question in detail with reference to the schemes submitted by Dr. M. V. Gopalaswami and Mr. K. Srinivasan and came to the conclusion that the Broadcasting service should be both on medium and shortwave and that a 5 K.W. transmitter should be established either at Mysore or Bangalore with two low power transmitters, one in the neighbourhood of the 5 K. W. Station and the other at Shimoga.. The non-recurring expenditure was estimated at Rs. 3·33 lakhs spread over a period of three years and the recurring annual expenditure at Rs. 1·50 lakhs (inclusive of a depreciation of Rs. ·60 lakh).

The opinion of experts who have been consulted is in favour of the establishment of a 5 K. W. shortwave transmitting station. The Government of India have allotted a wavelength of 49·67 metres or 6040/K. c/S for the station to be established in the State.

After further examination of the question with Dr. Gopalaswami, Government are pleased to direct that it is sufficient for the present to establish a 5 K. W. Broadcasting Station at Mysore with a small transmitting station at Bangalore at a capital cost of Rs. 2·66 lakhs (including the cost of Rs. 57,500 for buildings) and a recurring expenditure of Rs. 88,000 per annum. The development of Radio service in rural areas will be left to the local bodies, municipalities and village panchayets. The Chief Engineer is requested to arrange for the preparation of the necessary plans and estimates for the buildings for the Broadcasting Station to be located on the high ground behind the residence of the General Manager, Mysore State Railway.

Separate orders will issue regarding the detailed estimates of recurring and non-recurring expenditure on the scheme.

Administration Report of the Government Gardens Department and Hill Stations in Mysore for the year 1938-39.

READ—

Report on the working of the Government Gardens Department, including Nandi Hill Station, during the year 1938-39, received with letter No. 1373, dated 2nd October 1939, from the Superintendent, Government Gardens.

ORDER No. D. 2853-2913—G. G. 53-39-3, DATED BANGALORE, THE 1ST—2ND DECEMBER 1939.

Recorded.

2. *Increase in the Number of Gardens Under the Control of the Department.*—In addition to the existing 84 gardens under the control of the department, the gardens attached to the Railway Office, Telephone Exchange and Medical Association in Bangalore, and those attached to the New Railway Offices and Cheluvamba Maternity Hospital at Mysore were laid out and taken over by the department during the year under review.

3. *Economic Development and Rural Welfare Work.*—The post of Garden Assistant was revived as a temporary measure and his services were made available for assisting municipalities in regard to lay out of parks and also for encouraging fruit cultivation in rural areas. It was possible with the help of the local authorities to plant more ornamental trees in the main avenues approaching the towns and taluk headquarters and to have economic plants planted in several Village Panchayets. The Horticultural Inspectors visited many villages and several taluk headquarters for distributing seeds and seedlings of fruit plants and vegetables.

4. *Scientific Work.*—A number of foreign plants of economic and ornamental value were introduced, acclimatised and propagated for distribution. These include various varieties of dahlias from Holland, gladioli from England, heliotropes from Naples and chrysanthemums from Allahabad.

Experimental work on fruit plants was carried on at the Krishnaraj Sagar orchard as also the fruit nursery at Lal-Bagh and the Fruit Research Station, Hessarghatta. Experiments on vegetable growing were conducted at the Horticultural Farm, Bangalore and at Jeevanrayankatte Farm, Mysore.

Experiments on apples, mangoes, pine apples and figs have yielded very satisfactory results.

5. *Maintenance and Improvement of Gardens.*—All the gardens under the control of the department were maintained in an efficient condition and several minor works were carried out in the more important parks and gardens. Stone pergolas were provided along the walks in the Cubbon Park and the waste weir of the Lal-Bagh tank and the roads in the Lal-Bagh were improved. Scientific interest in the Lal-Bagh was maintained, 15 new varieties of plants having been planted during the year. As a centre of recreation, both the Cubbon Park and the Lal-Bagh, maintained their popularity in Bangalore, while the Curzon Park and Gordon Park in Mysore provided similar attraction in Mysore. Various improvements were effected in the minor gardens also and special attention was devoted to the garden attached to the Railway Colony in Bangalore. The Daria Dowlat Bagh and the Gumbaz Gardens in Seringapatam were kept well and attracted holiday visitors.

6. *Fig Cultivation at Ganjam.*—Technical advice was freely given for the maintenance of fig plants. A number of young plants were issued to growers free of cost. Vegetable seeds were also given free for inter-cultivation and to encourage the cultivation of vegetables.

7. *Mysore Horticultural Society.*—The Society continued its numerous activities as a centre of spreading horticultural knowledge. The response to the annual garden competition and the Horticultural Shows was entirely satisfactory. The Mango Show, held with the purpose of introducing some of the late varieties of mangoes grown in the east coast of India into the Mysore State, evoked special interest and 132 varieties were displayed.

8. *Fruit Research Experimental Station, Hessarghatta.*—During the year the whole area was fenced and laid out scientifically for experimental purposes. The area planted with apples is nearly 20 acres. Pine apples were planted in 2½ acres and several varieties of figs in about 1½ acres of land.

9. *Nandi Hill Station.*—The hill station continued to be popular and attracted 4,133 visitors (4,663); the slight fall in number was due to the early advent of monsoon conditions.

10. The question of reorganising the cadre of the department to cope with its increased activities was under the active consideration of Government and has since been sanctioned.

The work of the Superintendent and his staff during the year was quite satisfactory.

FINANCIAL SECRETARIAT

Letter of Credit System in the Public Works Department.

ORDER NO. FL. 3272-3342—G. F. 203-39-1, DATED BANGALORE, THE 7TH DECEMBER 1939.

Under the existing arrangement obtaining in the Public Works Department, the executive (Disbursing) officers are themselves charged with the responsibility of taking steps to see that the expenditure on works is kept within the limits of budget grants. In practice, however, it is found that large excesses are incurred year after year and the present arrangement of permitting pass orders to be encashed in treasuries without restrictions has resulted in excesses over budget grants also being incurred.

2. Measures have now become necessary that would at least ensure that the total budget grant allowed to a division is not permitted to be exceeded by an unrestricted drawal from treasuries without limit. Primarily, two definite objects require to be secured—

(*i*) to see that the Public Works Administration properly enforces the financial responsibility of its spending officers to avoid excesses over grants; and

(*ii*) that such excesses, when they do occur even over the total grants, are not allowed to go unnoticed and that prompt action is taken to regularise such expenditure.

3. In the circumstances, Government consider that the introduction of the system of Letter of Credit should be tried as an experimental measure in respect of two divisions for the present.

4. The Public Accounts Committee of 1937-38, which examined the matter, have also favoured the desirability of the initiation of such an arrangement and have suggested its adoption in a few selected divisions to start with.

5. Government are accordingly pleased to direct that the Letter of Credit system be introduced for the present in two divisions—Buildings Division, Bangalore, and the Headquarters Range, Mysore —with effect from 1st January 1940.

6. The currency of the Letter of Credit will be one half-year, and the unspent balance relating to the first half-year may be permitted to be utilised during the second half of the same year.

7. The amount of the Letter of Credit may be fixed by the Comptroller in consultation with the Chief Engineer, with due regard to the appropriations available for the several works to be taken up by the divisions under the several sources, such as the Irrigation Cess Fund, the Railway Cess Fund, the District Fund, Donations, Contributions, etc. Under Donations and Contributions, if the Executive Engineer or the Divisional Officer expects any great variation, he may

write to the Comptroller in good time beforehand, and the latter officer will, after scrutiny, arrange to enhance the Letter of Credit and advise the treasury accordingly.

8. The Comptroller is requested to work out the further necessary details in the matter. The system will be on trial for a period of two years from 1st January 1940. The Comptroller will review the arrangement and submit a report on its working at the end of the period.
